To All Future Student Savings Club Members,

Over the past year, I have had the chance to closely work with the Student Savings Club in effectively and successfully establishing a program at Baldwin-Wallace College in Berea, OH, and I can truly say that the entire process has been extremely satisfying. I'm happy to see that this has become a recognized staple in our campus community.

After coming into my leadership position in our Student Government association, I was immediately contacted by the Savings Club about bringing the program to B-W. With some skepticism, I researched the organization and spoke extensively with representatives over the phone about what it might entail. In light of the economic times that everyone deals with, it seemed a great idea for the entire college population to receive free discounts at area vendors and businesses, so we joined in. Since then and through our interactions with the Student Savings Club, we haven't looked back.

Instituting the program on campus was very easy on our part. We simply provided our recommendations of area businesses frequented by students and staff, and the Savings Club organization did all the work in terms of negotiating great discounts and special savings offers. Once we got our discount program established, we publicized the new savings extensively with the help of poster templates and logos provided to us by the SSC. Throughout the process, keeping in contact and up-to-date with Jason Sejud, our SSC representative, has been seamless. Jason's ability to respond to our questions and needs has been timely, professional, and caring. His help in getting our savings program set up and in continually looking for new and current discounts from area vendors has been unmatched in terms of customer service.

I strongly urge you to consider bringing this worthy program to your campus. If you do, I know you'll find that you've signed up for a program that shows results and true customer satisfaction. Happy Savings!

Sincerely,

David Moser
Student Body President, Baldwin-Wallace College
