To Whom It May Concern:

I wanted to express my deep gratitude for the people at the Student Savings Club. Budget and saving money are obviously big concerns for college students and the folks at Collegiate Services have put together an incredible program for us.

It is honestly so easy, you have a specific representative that works with your student government or group and once you get them your wish list, they take care of the rest. Most times students think discounts only pertain to eating establishments and that is included, but this program goes so much further. They work to get discounts on things students really need that might be a bit costly: car care, groceries, even tanning salons.

Our students have been so grateful for the amazing amount of money they have saved. Sometimes, they found discounts at places they did not even know would offer them. Student Savings is persistent enough to push the issue and helps to make incentives for the program for businesses involved. The cost of the program is so minimal when compared to the long term savings from the student body.

On a personal note, our student government often hesitates to work with outside vendors, but I have never had an easier time than with the Student Services. They were there every step of the way to make my job easier and to put together an amazing program for us. I hardly felt like I did any work!

I would recommend this program to any college student government or any group that wants to save their students a good chunk of change. I've saved from this and I know our students absolutely love it.

Thanks Student Savings!
